

VAP WORKSHOP

Virginia Air Permitting Certificate

A Can't Miss Event

The **VAP Workshop** is a two-day program offering hands-on training and 13.5 continuing education hours led by **DEQ experts and industry leaders**.

A must-attend event for environmental professionals, VAP Workshop attendees will get practical experience in **air permitting processes**, the opportunity to **earn the certification**, and **gain insights** from top experts.

What You'll Gain

VAP Certificate of Participation

All participants will receive a certificate for **13.5 hours** of continuing education.

Virginia Air Permitting Certificate

Testing will be available immediately after the second day's sessions. Passing attendees will receive the certificate on behalf of DEQ and VMA's Manufacturing Skills Institute.

DEQ Connections

Gain insights from DEQ professionals throughout presentations and breakout sessions.
